A Note From Our General Manager...

Dear *Free Times* readers and WRUW listeners,

Greetings for 2001! The new year - and "real" new millennium! - brings with it exciting things for WRUW.

As you may know, this past semester has been a rough one for our radio station. We've had many technical difficulties, most of which have been related to our power increase, though other problems have occasionally risen to plague us. As we are broadcasting at 50 watts at the time of this letter, I know that many of our listeners cannot currently hear WRUW. Since our low power is a result of one of the steps we made towards the power increase, the problem will be fixed when we finally make the jump to 15,000 watts.

With all the major events happening at the radio station this spring, the coming semester promises to be a good one. In addition to the power increase, we will have our annual telethon, and something we're calling the Rebirth of WRUW. Our loyal listeners all know of the annual telethon; it's the chance that you have to support the radio station. It's vitally important that we get that support; the station thrives only your generosity!

The Rebirth of WRUW is a weeklong period that will coordinate with the power increase, sometime before April. For this week, the radio station will be off-air, but behind the scenes we'll be busy. This will be our opportunity to repair all the equipment which gets constant use, to organize the station, and to generally prepare ourselves to come back better than ever and broadcasting at 15,000 watts!

WRUW is one of the last bastions of radio freedom on the air. This semester we have 94 different programmers bringing their own versions of music, talk, and entertainment to the airwaves. In a week of programming, that's a lot of variety. This semester we have a few shows returning after a hiatus; among them, *Ubiquitous World Consciousness* with Matt Hurd and *Splatter Rock* with Charles. We also have a number of exciting new shows at the radio station, including: *The Queen is Dead*, a survey of music from the British Isles and Extended Empire; *Global Taxi*, a world music show with a different host every week, each imparting their particular spin on world music; and *White Noise/Grey Matter*, an eclectic jazz show for night owls.

I would like to thank all of you who have called or written to ask about the power increase and our recent technical problems. Please show the same support when it comes time for the Telethon. We still need your help! If you have any questions about WRUW, you can always call the radio station at 216-368-2208, or check out our website at <http://radio.cwru.edu>. We are broadcasting, and webcasting, 24 hours a day, 7 days a week, so keep on listening! The best is yet to come.

Sincerely,

Genevieve Mathieson
